Dielectric Welcomes Mark Galewski as New CFO

RAYMOND, Maine — Aug. 31, 2010 — Dielectric Communications, a division of SPX and a leader in broadcast systems, today announced that it has appointed Mark Galewski as the company's new chief financial officer (CFO). In this role, Galewski will oversee the company's financial strategic planning as it continues to expand in the television, radio, mobile media, and mobile television broadcasting markets.

"Mark has extensive experience — both domestic and worldwide — in strategic planning and financial resource management, and we're confident he's the perfect fit for guiding Dielectric through our development of new technologies and expansion into new markets," said Garrett VanAtta, president of Dielectric. "He's a hands-on financial leader with a proven track record of improving operational efficiencies and fiscal savings. We're thrilled to have him join our team."

Galewski joins Dielectric from Invensys, a global controls, automation, and processing solutions provider based in London. An experienced member of the Invensys team since 1991, Galewski most recently served in the Controls division as vice president of finance. His prior experience includes positions as vice president, controller, and operations manager at various manufacturing companies within the automotive, appliance, and HVAC industries. He holds an MBA from Wisconsin-based Marquette University.

"I'm pleased to join Dielectric at such an exciting time in the company's development. The face of broadcasting is changing, and with audiences now accessing content through a wide range of media, Dielectric has new opportunities for facilitating both traditional and nontraditional
